EDUCATION

John Carroll University, University Heights, OH

May 2025

Bachelor of Science

Major: Computer Science; **Minor:** History; Honors Program;

Major GPA: 3.92; **Cumulative GPA:** 3.93; **Dean's List:** 7 semesters

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Software Development Practices, Advanced Database Systems, Models of Computation

EXPERIENCE

John Carroll University

University Heights, OH

Software Development Intern, Center for Student Diversity and Inclusion August 2024 - May 2025

- Developed a mobile application using the Ionic Framework and Capacitor, aimed at reducing food insecurity by notifying users of leftover food from campus events.
- Collaborated with diverse stakeholders to gather user feedback, iterate on app features, and ensure alignment with evolving requirements.

Cleveland Clinic Foundation

Beachwood, OH

Software Development Intern, Radiology

January 2023 - Present

- Integrated and optimized data from multiple databases into a unified Model-View-Controller (MVC) application, improving operational efficiency for Radiology staff.
- Upgraded critical company websites from Web Forms to .NET Core 6, improving user interface design and maintaining functionality for hundreds of daily users.
- Modernized a legacy laboratory database system, ensuring its continued functionality by upgrading to a more efficient and scalable platform.
- Collaborated with internal teams, demonstrating professional communication and technical problem-solving, essential for working in a healthcare setting.

COMPUTER SKILLS

Skills: C#/.NET, .NET Core, ASP.NET MVC, Entity Framework, MySQL, SQLite, HTML5, JavaScript, CSS, Angular, ReactJS, Blazor, JSON, PHP

Tools: Visual Studio, Microsoft SQL Management Studio, Visual Studio Code, GitHub, Azure DevOps, Tableau, IntelliJ, Eclipse, NetBeans, Kronos, Epic

Relevant Projects:

Cleveland Clinic - Equipment Manager - Imaging Data Manager

- Developed an MVC application to integrate equipment data into a unified, user-friendly UI for administrators, improving workflow efficiency.

John Carroll University - Streaks Eat - Leftover Food Notification App

- Created a mobile app to notify users about leftover food from campus events, contributing to sustainability and community welfare efforts.
